

# Milk replacer for calves

*For a great start in life.*

## Calf MAX

*A high protein calf milk replacer for the raising of replacement heifer calves. Well suited for computer feeding programs or manual mixing.*

*Calf MAX is an all milk protein milk replacer specifically designed to enrich the calf raising experience. With its unique blend of milk proteins and energy source, you can expect your calves to reach their full genetic growth potential. Calf MAX provides all the milk nutrients a calf requires prior to weaning to maximize tissue and bone growth while preparing the calf for future milk production.*

- ★ Easy to Prepare
- ★ An Excellent Choice
- ★ Unique Protein Matrix

# Milk replacer for calves

# Calf **MAX**

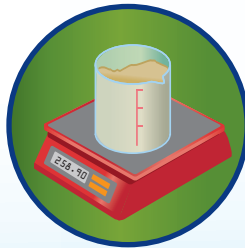

## Feeding preparation

*Always use potable water and clean equipment*

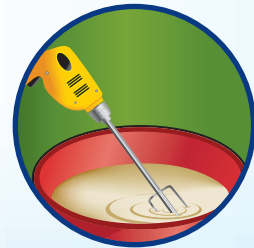

**1**

Measure the proper amount of water. Temperature 50 to 60° C

**2**

Carefully weigh the **Calf MAX** milk replacer

**3**

Mix for 2 minutes and feed at 42° C

### FEEDING PROGRAM

Age in days | Meals per day | Liters per meal

Age in days	Meals per day	Liters per meal
1 to 3	colostrum	free choice
4-7	3	2.0
8-12	3	2.5
13-20	2	3.0
21-42	2	3.5
43-50	1	2

MIX 150 G OF **Calf MAX**  
WITH 850 G OF WATER.

*To complete this feeding program, clean, fresh water along with a good quality calf starter should be available to the calf starting at 5 days of age. Water and calf starter should be refreshed daily.*
